🎓 Education

BUPT – Intelligent Science & Technology
GPA: **3.4 / 4.0**

📚 Core Courses

- C++ Programming: **82**
- Data Structures: **75**
- Machine Learning: **85**

💻 Technical Skills

- Advanced C++ programming
- Multi-threading (basic)
- Algorithm design (DP, graph)
- Linux development

🧪 Projects

Algorithm Practice Platform

- Implemented multiple algorithms with optimization

Mini HTTP Server

- Built using C++ with basic concurrency

Multi-threaded Task Simulator

- Explored scheduling and synchronization

👨‍💻 Experience

Independent Programming Practice

- Independently studied and completed 50 C language projects
- Focused on efficiency and optimization

🧠 Teaching Motivation & Self-Evaluation

I have strong practical programming skills developed through intensive coding practice. While my academic performance is moderate, I excel in solving real programming problems.
I aim to improve my communication skills and help students with hands-on coding challenges.
