## 🎓 Education

**Beijing University of Posts and Telecommunications (BUPT)**
B.Sc. in Computer Science
Year 3 | GPA: **3.6 / 4.0**

---

## 📚 Core Courses

- Data Structures (C++): **92**
- Object-Oriented Programming: **90**
- Operating Systems: **88**
- Computer Networks: **85**

---

## 💻 Technical Skills

- C++, C, Python
- OOP, STL, memory management
- Linux, Git

---

## 🧪 Projects

**C++ Student Management System**

- Designed modular system using object-oriented programming
- Implemented file storage and data processing

---

## 👩‍🏫 Queen Mary-BUPT Joint Programme experience

**Teaching Assistant Support (Course-based)**

- Assisted instructors in evaluating student programming assignments
- Checked whether student work met course requirements and coding standards
- Provided constructive feedback and suggestions for improvement
- Helped students identify common issues in logic and implementation

---

## 🧠 Teaching Motivation & Self-Evaluation

I have strong C++ fundamentals and practical experience in assisting course evaluation. I am familiar with common mistakes students make and can provide clear, actionable feedback.
I am patient and detail-oriented, and I hope to further develop my teaching skills while supporting students effectively.
